

OpenAI Model Cheatsheet

Only Plus subscribers get access to the GPT-4, GPT-4o and GPT-4.5 slots (and DALL · E 3).

Model	Limit	Reset	Description
GPT-4	40 msgs	every 3 h	Advanced general-purpose with strong CoT reasoning; will retire from ChatGPT on Apr 30, 2025.
GPT-4o	80 msgs	every 3 h	“Omni” successor to GPT-4 with native vision/audio support, faster & more consistent.
GPT-4.5 (Orion)	~50 msgs	per week	Feb 2025 research preview; excels at conversation & EQ, limited chain-of-thought.
o4-mini	150 msgs	daily at 00:00 UTC	Lightweight GPT-4o variant for general use; lower latency, daily cap instead of rolling window.
o4-mini-high	50 msgs	daily at 00:00 UTC	High-performance o4-mini tuned for coding, STEM & logical tasks.
o3	50 msgs	per week	Original o-series model; legacy; weaker than o4 variants.
o3-mini	150 msgs	daily at 00:00 UTC	Compact model for fast answers & summaries; less depth on complex CoT reasoning.
o3-mini-high	50 msgs	daily at 00:00 UTC	Enhanced o3-mini variant optimized for coding/debugging tasks.
o1-preview	50 msgs	per week	Very early public reasoning model; largely superseded by o3 series.
DALL · E 3	40 prompts	every 3 h; 200 imgs/day	In-chat image generation; supports free-form and in-context ops.
Deep Research Projects	10 queries	per month	Academic-style search & analysis tool.
	20 projects × 20 files	N/A	File/data sandbox: 512 MB/file, 2M tokens total.
